

Dear valued customers,

We are pleased to inform you that Container Providers International Aps, Denmark (CPI) has acquired all shares of Pihakatti Oy, including its subsidiaries, Container Depot Oy and Arctic Container Oy.

CPI has 45 years of history in the container leasing and trading business in Finland. That was the background for opening Depot Service Rauma Oy (www.dsr.fi) in 2010.

We believe DSR is the best managed depot in Finland today, and it will be the same DSR management team that will manage all our 3 depots after completion of the transaction to us.

The acquisition will not result in any interruption to the daily services. All the responsibilities and daily operations will gradually be transferred, during the coming weeks to DSR management, all to ensure a smooth transition. There will be no changes in your regular contacts in the operational and M/R departments.

It is our aim that the synergies, from running depots in the major Finnish ports Kotka, Vuosaari and Rauma will give you an even better service and with more comprehensive and uniform solutions designed to your needs.

We are excited about this new chapter in our company and we feel very committed to provide you with a high level of service. CPI can ensure this, as we have a very solid financial base and because we are in the depot business for the long run.

We would like to take this opportunity to thank you for your continued support and look forward to serving you in the future.

Marc Mellin is the Managing Director for all the acquired companies and Niels Henrik Olsen is CFO for the group of CPI's companies.

If you have any questions or concerns, please do not hesitate to contact us.

Sincerely,
